

WIRELESS INTERNET. BUILT FOR TAOS.

BUT THE UPGRADES?
THOSE ARE FOR YOU.

TaosNet
WIRELESS INTERNET. ELEVATED.

Scientific Fact:

10 out of 10 people like getting faster internet speeds for the same price they were paying before.

Ok, it's not a fact. We made that up. After all, it's possible someone quietly found Forrest Fenn's treasure and doesn't mind paying out the wazoo for old timey dial-up speed. But that guy is missing out. With TaosNet, we're updating and upgrading our network to give you reliable wireless internet right here in Taos. That means you can more than pentuple your speed for the same money.* In fact, we're taking our old legacy plans and giving them injections of IGH (Internet Growth Hormone). Fine, we made that up too. But we are installing killer new tech around Taos that is very real. And really fast. Even if you sign up before completion in your area, you'll be automatically upgraded to the new plan!

Legacy Plan	Legacy Plan Rate		New Plan	New Plan Rate
512k	\$35.00	▶	4mb	\$34.95
1.5mb	\$50.00	▶	8mb	\$49.95
3mb	\$70.00	▶	16mb	\$69.95
6mb	\$95.00	▶	32mb	\$94.95
9mb	\$125.00	▶	64mb	\$124.95

* Speeds may vary, but all upgraded plans offer at least 5x the legacy bandwidth. Pentuple is totally a word, and we didn't make that up.

Legacy Upgradery

So you've signed up for some shiny new internet, and you are in one of our Legacy Plan Areas. You might be wondering, "But when will I get my ridiculous fast and free internet upgrade?" Soon. So soon. How soon? Real soon. Just look at the chart on the left to know when we plan on delivering up to 8x the speed to you.

Still not fast enough?

We like your style. Never miss a binge-watch-a-thon or the latest cat meme with **100-200mbs**. Yes, we can do that. If you are in one of our completed upgraded coverage areas, contact us for a custom quote to get some crazy fast internet. Check our schedule for completion dates, or give us a call and speak to a real live Taoseño that works at TaosNet.
